

An aerial photograph of a mountain range, likely the Ardennes, showing rugged peaks and a valley with a dense forest. The image is faded to serve as a background for the text.

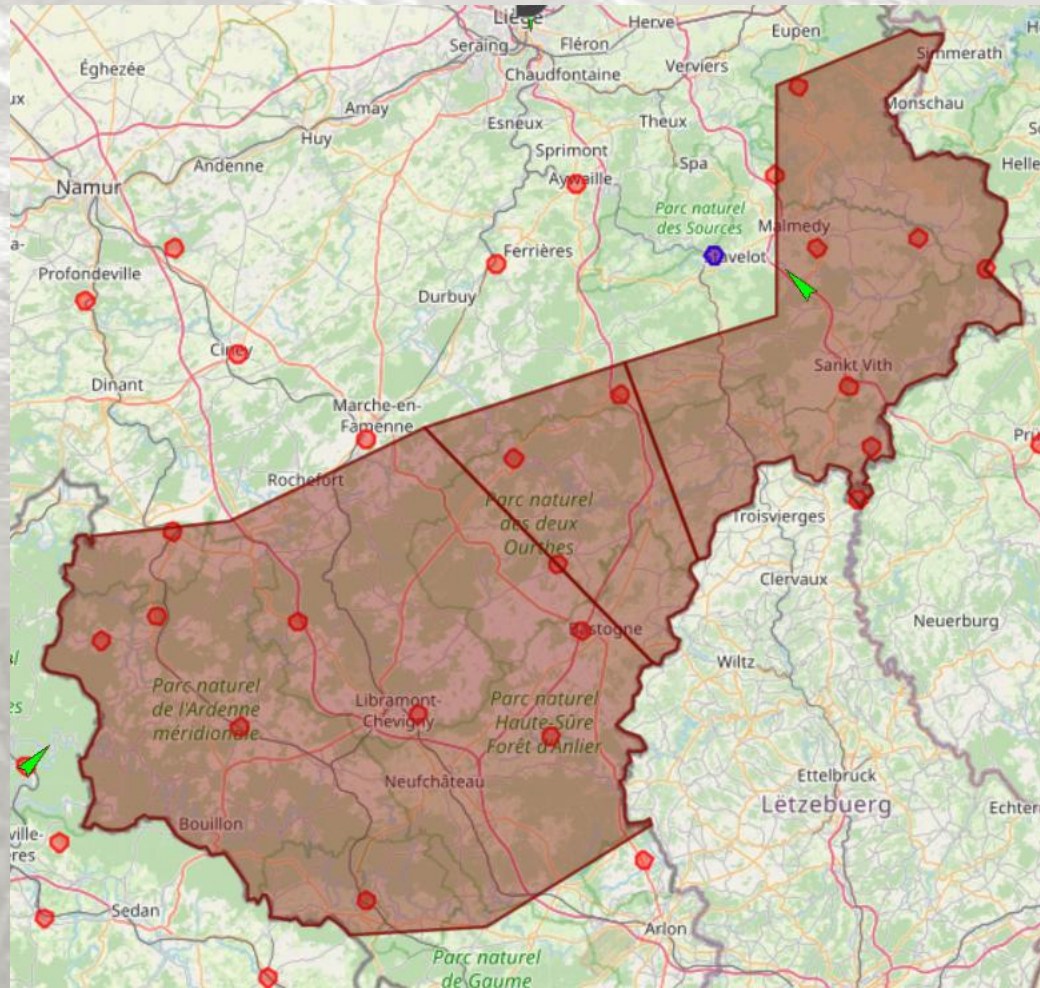

Glider Areas Ardennes

Training (& Exam)

What is the “GAA” certificate?

- Agreement with MIL
→ « OK to fly within GAA zones for identified, authorized pilots, complying with specific conditions »
- New knowledge, new rules ==> new responsibilities
- An additional “GAA” certificate
 - “Pilote”
 - “Pilote XC”
 - “Pilote XC GAA”

GAA = FL65 during the week!

Conditions to fly within GAA zones

The pilot has to:

- follow a **GAA training**
 - successfully pass the **GAA exam**
 - have signed the **GAA charter**
 - fly with **Livetracking** (XCTrack/Xcontest or Flymaster) **whenever the pilot go flying**
 - own and use a radio able to **listen to EBSH frequency** (122.180 MHz)
 - Use **EBSH Tower app** on an Android smartphone whenever flying within GAA zones
- receive a **FBVL GAA NUMBER CERTIFICATE** once all conditions are met.

Accountability through a charter:

Additional
GAA
specific
rules

Additional
responsibili-
ties in GAA

Additional
tools to
handle
them

A charter to
formalise
the pilot's
commitment

Engagements du pilote XC « GAA » :

En tant que pilote XC - GAA :

- Je suis pilote certifié « GAA » ayant suivi la formation relative aux règles et usages spécifiques des « GAA ». Je dispose donc du brevet « GAA » N°.....
- Je dispose d'un dispositif de live tracking qui permet à toute personne de m'identifier lorsque je suis en vol. J'utilise le système de Livetracking suivant:
 - o Flymaster
 - o XcontestIdentifiant :
Depuis le:
- Je dispose d'une radio me permettant de rester en veille sur la fréquence de St Hubert et je m'engage à assurer une veille sur cette fréquence tout au long du vol lorsque je suis amené à entrer dans une GAA active.
- Je dispose de l'app EBSH Tower et je m'engage à l'utiliser lors de mes vols lorsque je suis amené à entrer dans une GAA active.
- Je m'engage à mettre tout en œuvre, dans la mesure où la sécurité du pilote ou d'autrui n'est pas menacée, pour voler en toute légalité.
Ceci comprend :
 - o Une préparation adéquate du vol (AIP + NOTAM, conditions météo, connaissances des espaces aériens à proximité de la zone d'évolution, etc.)
 - o Une adaptation du vol effectué en fonction des conditions réelles rencontrées
- Je m'engage à voler avec un système de Livetracking public à tout moment, y compris lorsque je n'évolue pas dans une zone GAA.
Ceci dans le but de :
 - o Optimiser la sécurité du vol et la sécurité
 - o Rentrer dans le cadre d'une collaboration multidisciplinaire
 - o Servir d'exemples pour les autres pilotes
 - o Eviter les infractions.J'ai bien pris conscience que le fait de voler sans Livetracking actif m'expose à la déchéance de mon brevet XC – GAA.

La sécurité est l'affaire de tous et dans l'aviation celle-ci s'est construite sur l'expérience et le partage d'informations. Il n'y a donc pas, derrière les requis cités ici avant, de volonté ou souhait répressif, mais bien un partage d'informations au bénéfice de tous

GLIDER AREAS ARDENNES 2024

1 General

The Glider Areas Ardennes aim at replacing the MILFAG areas 11, 12, 13, 14, 15, 16 as defined in AIP Belgium & Luxembourg ENR 5.5.

The Glider Areas Ardennes are on trial from 15 MAR 2024 till 15 OCT 2024.

All terms and details as described in the LoAs

- between Belgian Air Component and Centre National de Vol à Voile (CNVV) and VZW Belgian Air Cadets (BAC) (Ref COA – LoA 52)
- between Belgian Air Component and Royal Verviers Aviation ASBL (Ref COA – LoA 74)

remain in effect if not modified by this AIP SUP.

Specific GAA Knowledge (2022-2023)

GLIDER AREA SAINT-HUBERT (1)(2)(3)

Lateral limits	Vertical limits	Type of restriction / nature of hazard	Time of activity
500557N 0045210E - 500657N 0050553E - 501252N 0052512E - 495757N 0054744E - along the Belgian-Luxembourg border - 494738N 0054729E - 494106N 0053116E - 494038N 0051741E - along the Belgian-French border - 500557N 0045210E.	FL 065 (included) / 4500 FT AMSL	Glider activity.	15 MAR till 15 OCT - daily 1000 (0900) till SS (4)(5) (6)(7)
<p>(1) Glider sector. Airspace class G during activation.</p> <p>(2) Transponder carriage is not compulsory. Gliders equipped with transponders will read: A1477.</p> <p>(3) Activated by NOTAM D-1 1600 (1500) at the latest.</p> <p>(4) All non-military aircraft within this airspace need to be in contact with Saint-Hubert Radio on 122.180 MHz or, for Belgian Air Cadets only, with Bertrix Radio on 130.130 MHz.</p> <p>(5) Any conflicting areas announced by NOTAM, except TSA25C and TSA26B, are excluded for glider use during activation. In case of simultaneous activation of Glider Area Saint-Hubert and TSA25C or TSA26B, both areas are usable at the same time. Pilots operating within TSA25C or TSA26B shall be aware of Class G airspace activation up to FL 065 included.</p> <p>(6) Activation can be checked with Brussels FIC on FREQ 126.900 MHz, TEL +32 (0) 2 206 29 49 or with Belga Radar on FREQ 129.325 MHz, TEL +32 (0) 2 44 38204.</p> <p>(7) End time may be up to SS, see §3 'Special Procedures'.</p>			

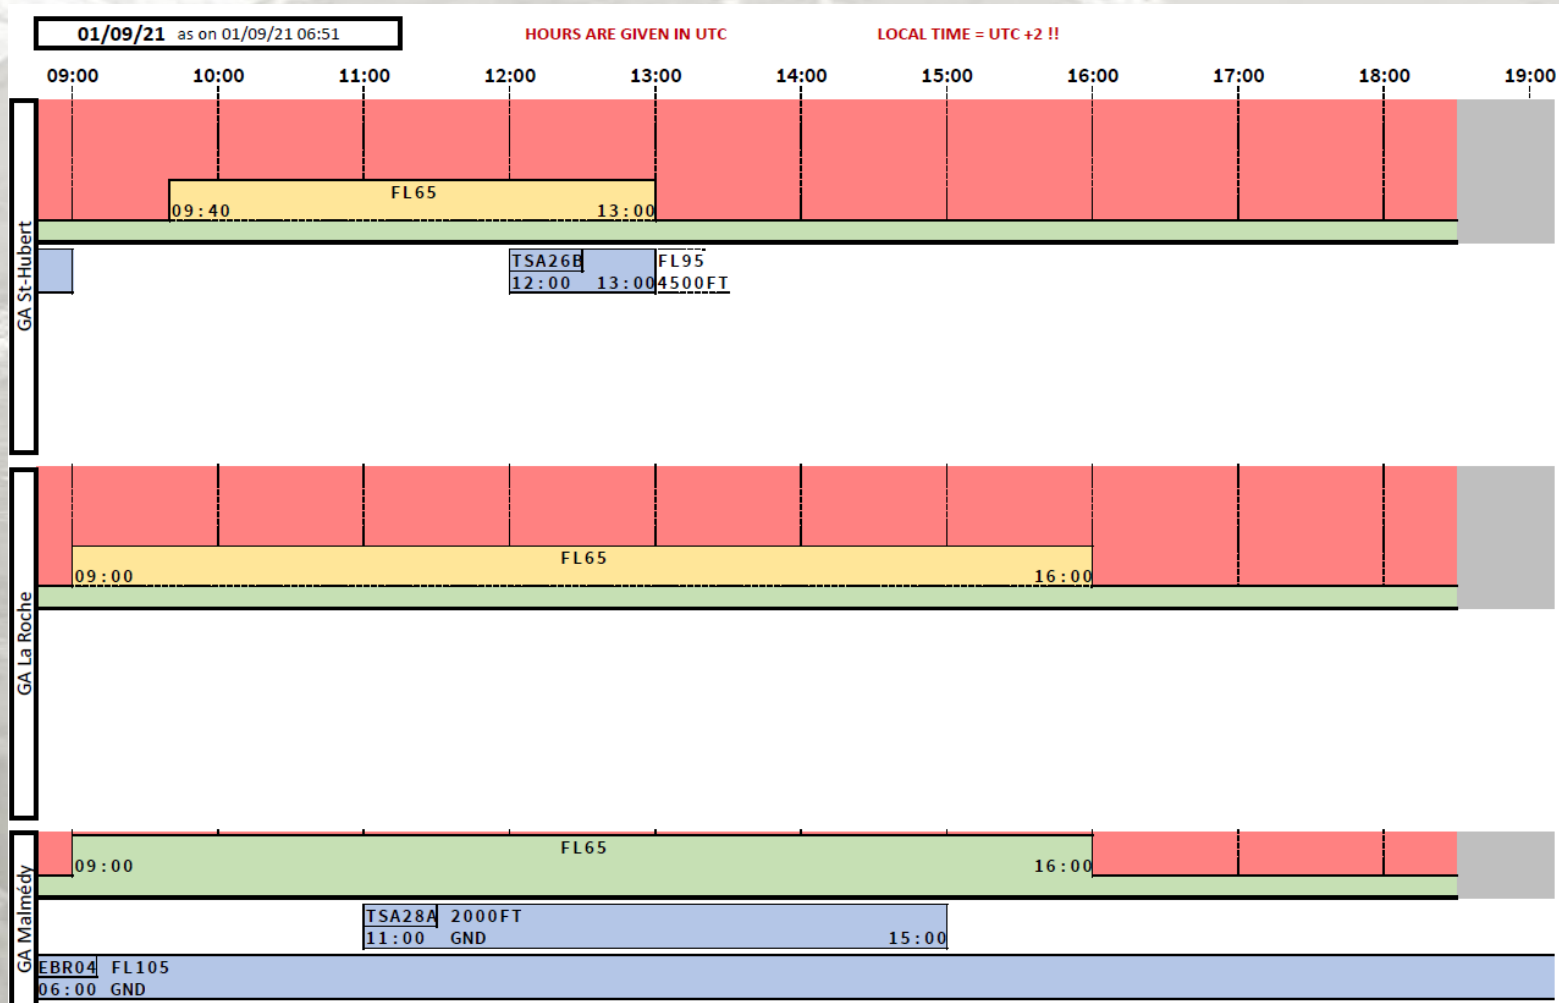

GLIDER AREA LA ROCHE (1)(2)(3)

Lateral limits	Vertical limits	Type of restriction / nature of hazard	Time of activity
501252N 0052512E - 501654N 0054455E - 500426N 0055210E - along the Belgian-Luxembourg border - 495757N 0054744E - 501252N 0052512E.	FL 065 (included) / 4500 FT AMSL	Glider activity.	15 MAR till 15 OCT - daily 1000 (0900) till SS (4)(5) (6)(7)
<p>(1) Glider sector. Airspace class G during activation.</p> <p>(2) Transponder carriage is not compulsory. Gliders equipped with transponders will read: A1477.</p> <p>(3) Activated by NOTAM D-1 1600 (1500) at the latest.</p> <p>(4) All non-military aircraft within this airspace need to be in contact with Saint-Hubert Radio on 122.180 MHz.</p> <p>(5) Any conflicting areas announced by NOTAM are excluded for glider use during activation.</p> <p>(6) Activation can be checked with Brussels FIC on FREQ 126.900 MHz, TEL +32 (0) 2 206 29 49 or with Belga Radar on FREQ 129.325 MHz, TEL +32 (0) 2 44 38204.</p> <p>(7) End time may be up to SS, see §3 'Special Procedures'.</p>			

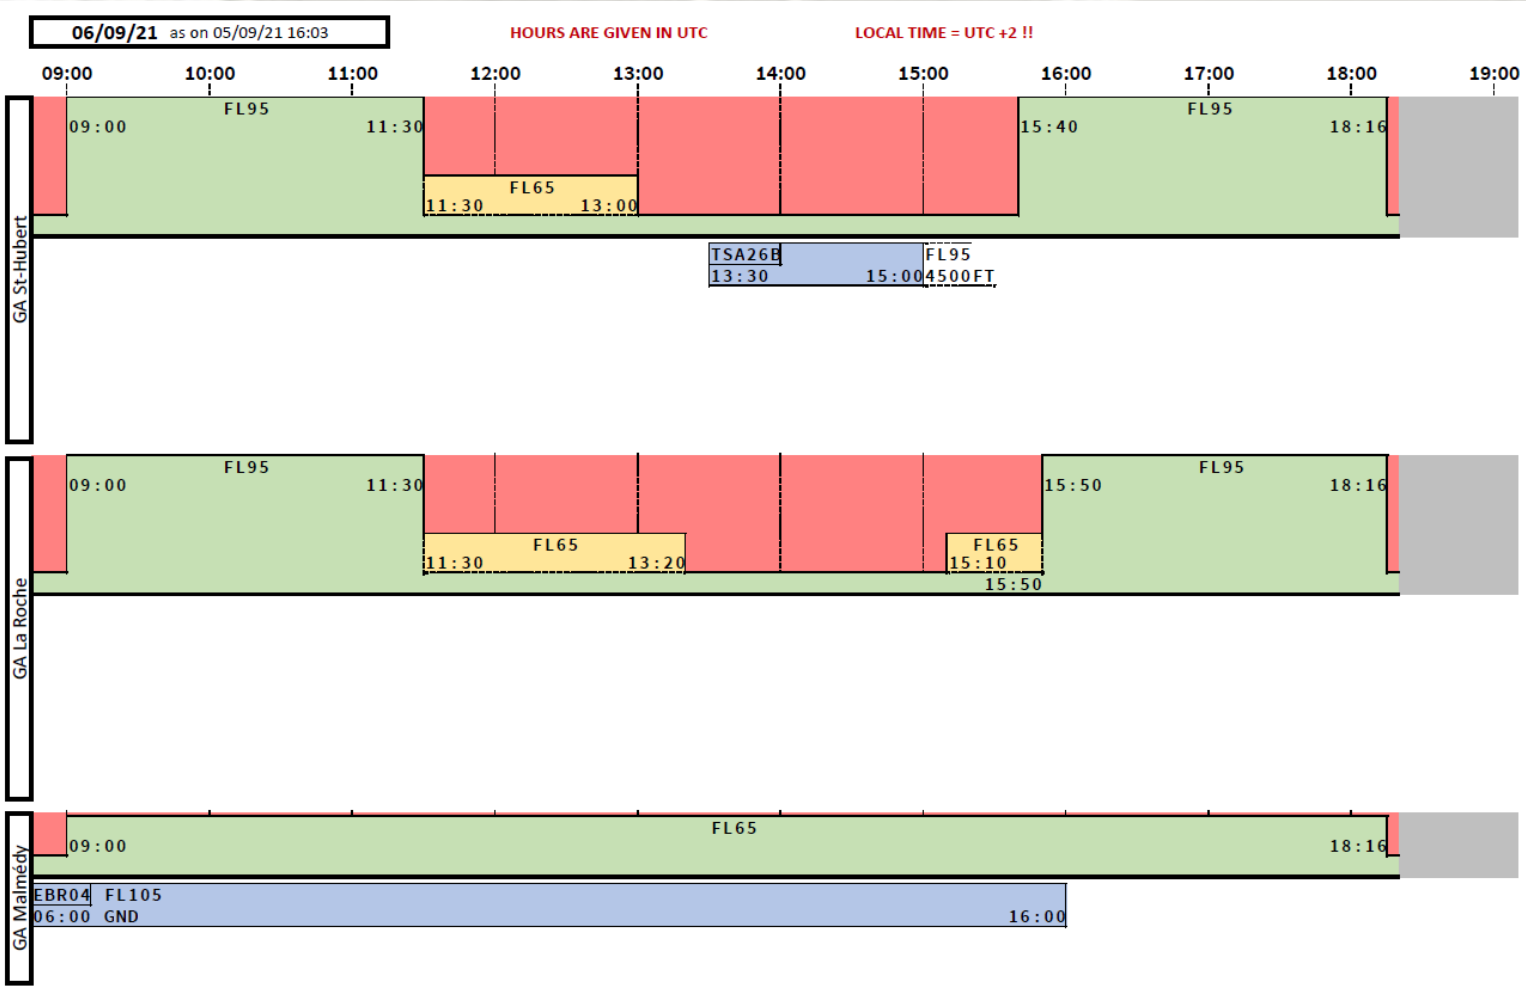

GLIDER AREA MALMED (1)(2)

Lateral limits	Vertical limits	Type of restriction / nature of hazard	Time of activity
501654N 0054455E - 501955N 0055956E - 503420N 0055956E - 503754N 0061308E - along the Belgian-German border - 500748N 0060816E - along the Belgian-Luxembourg border - 500426N 0055210E - 501654N 0054455E.	FL 065 (included) / 4500 FT AMSL	Glider activity.	15 MAR till 15 OCT - daily 1000 (0900) till SS (3)(4) (6)
<p>(1) Glider sector. Airspace class G during activation.</p> <p>(2) Activated by NOTAM D-1 1600 (1500) at the latest.</p> <p>(3) All non-military aircraft within this airspace need to be in contact with Saint-Hubert Radio on 122.180 MHz.</p> <p>(4) Any conflicting areas announced by NOTAM are excluded for glider use during activation.</p> <p>(5) Activation can be checked with Brussels FIC on FREQ 126.900 MHz, TEL +32 (0) 2 206 29 49 or with Belga Radar on FREQ 129.325 MHz, TEL +32 (0) 2 44 38204.</p> <p>(6) End time may be up to SS, see §3 'Special Procedures'.</p>			

Example in 2021-2023!

Sometimes

2024: 😊!

Reminder: NOTAM = UTC!

2024 ~= summer 2023!

B3220/23

From: 01 JUL 23 09:00 *Till:* 31 AUG 23 16:00

Schedule: MON-FRI 0900-1600 EXC JUL 21 AUG 15

Text: REF SUP 005/2023. GLIDER AREA LA ROCHE ACT. CONSULT SUP FOR APPLICABLE PROC. TRANSPONDER NOT REQUIRED

Lower limit: 4500FT AMSL *Upper limit:* FL065

B3222/23

From: 01 JUL 23 09:00 *Till:* 31 AUG 23 16:00

Schedule: MON-FRI 0900-1600 EXC JUL 21 AUG 15

Text: REF SUP 005/2023. GLIDER AREA MALMEDY ACT. CONSULT SUP FOR APPLICABLE PROC. TRANSPONDER NOT REQUIRED

Lower limit: 4500FT AMSL *Upper limit:* FL065

B3287/23

From: 04 JUL 23 11:50 *Till:* 31 AUG 23 16:00

Schedule: MON-FRI 0900-1600 EXC JUL 21 AUG 15

Text: REF SUP005/2023. GLIDER AREA SAINT-HUBERT ACT. CONSULT SUP FOR APPLICABLE PROC. TSA26B IS PERMEABLE FOR GLIDERS INSIDE GLIDER AREA SAINT-HUBERT. TRANSPONDER NOT REQUIRED

Lower limit: 4500FT AMSL *Upper limit:* FL065

B3294/23 (Exemple de la première semaine de juillet)

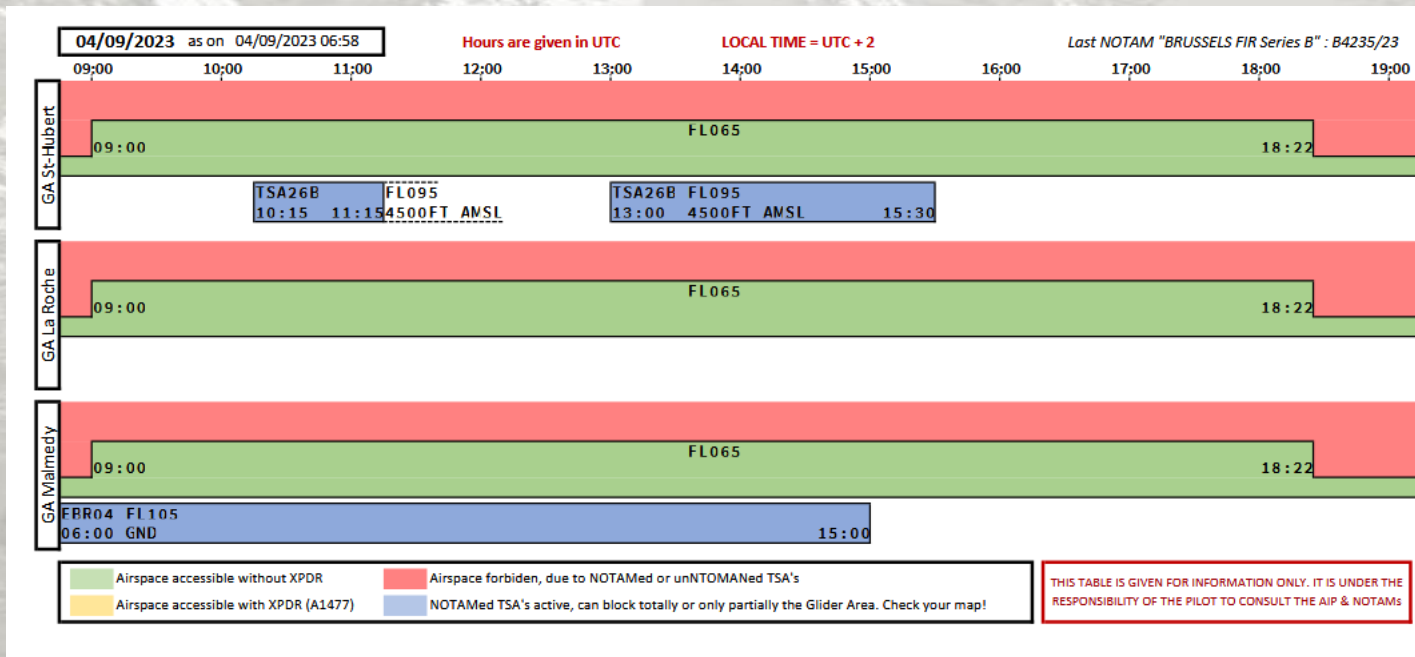

From: 04 JUL 23 13:04 *Till:* 07 JUL 23 13:15

Schedule: JUL 04 1200-1315, 05 0800-0915 1200-1315, 06 1330-1500, 07 0800-0915 1200-1315

Text: TSA26B - ARDENNES 04 ACT. TSA26B IS PERMEABLE DURING ITS ACT FOR TRAFFIC INSIDE GLIDER AREA SAINT-HUBERT WHEN ACT AND FOR ACFT IN EMERG

Lower limit: 4500FT AMSL *Upper limit:* FL095

This means...

EBR04 or other zones are NOT PERMEABLE

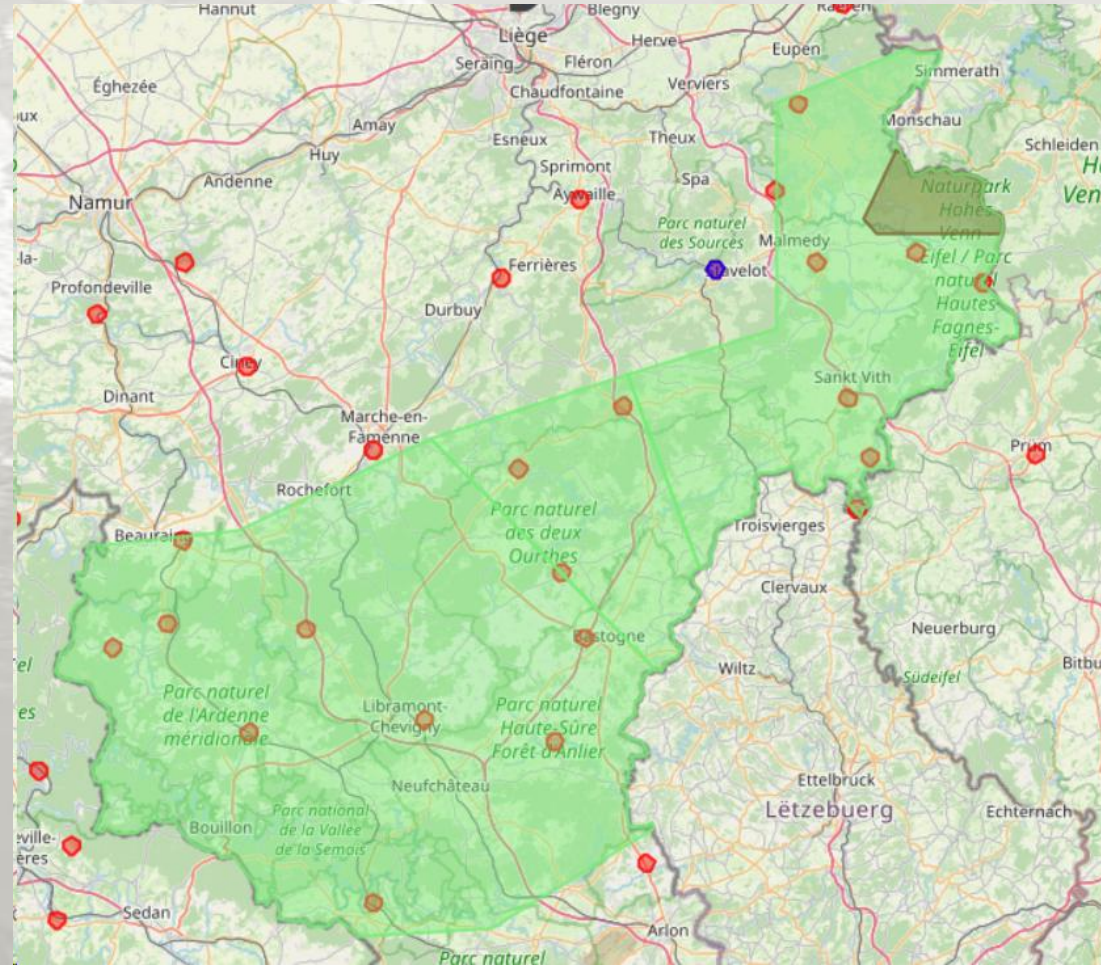

How GAA work?

The Glider Areas Ardennes (GAA), like the LFA-G, are specific **extension of the G class** airspace.

Differing from the usual non-controlled airspace, few specific rules to take into account.

3 different areas (2023):

- **GA Saint-Hubert**
- **GA La Roche**
- **GA Malmedy.**

USE the Friendly AIR Tool to check details: <https://mids.be/fat/fat.php> Select GAA down the list!
CHECK ALTITUDE tranches to display!

GA – Saint-Hubert

Beauraing & Rochefort take-offs are OUTSIDE!

GA – La-Roche

La roche take-off is inside!

GA – Saint-Hubert & La Roche

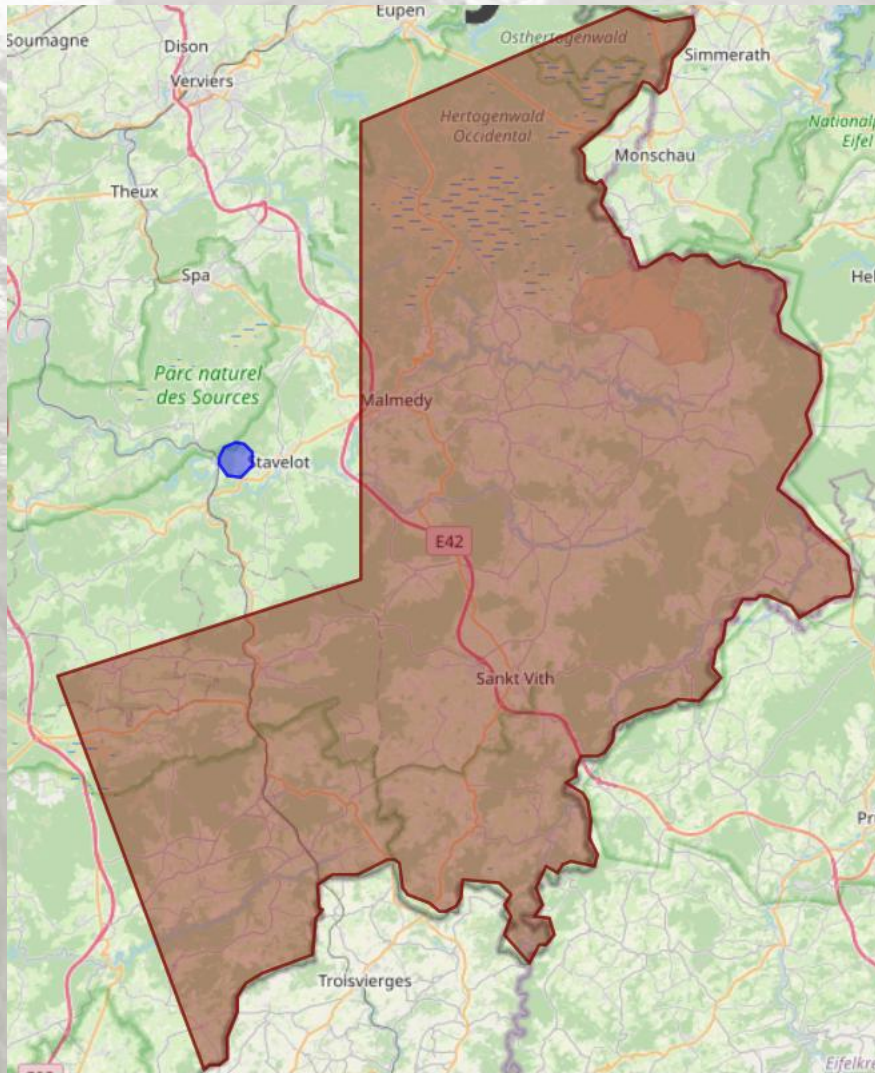

- When **Mil non-active** :
 - Transponder no more requested in 2024
 - Climb to **FL65 possible**
 - Stay on EBSH frequency
 - Check EBSH-Tower app notifications and messages
- Mil can de-activate the zone for special needs!
- Special restricted zones **keep the priority, probably with the exception of TSA26B and TSA25C**

GA – Malmedy

- From 4500ft^{QNH} to **FL65** (included)
- Stay on EBSH frequency
- Check EBSH-Tower app notifications and messages
- Special zones such as EBR04 **keep the priority**

GA – Malmedy

Coo take-off is OUTSIDE!

EBR04

GAA commitment!

- While flying across the GAA, the GAA-XC pilot must listen to EBSH radio frequency and have an eye on EBSH-Tower app notifications in case Mil takes the area back. (it happens!)
- EBSH frequency is: 122.180 MHz
- Check EBSH-Tower app message confirmation (see below)
- One pilot CANNOT monitor EBSH radio for other pilots !
- You need a special AM monitoring radio (no need to be able to speak)
- Use Livetracking (Flymaster or XCTrack/Xcontest) for all flights

→ GAA zones and LFA-G status WHEN EBSH set it up!

www.ebsh.tower.be → IOS

- Status of the zones can be seen with any browser, including on IOS...

The screenshot shows a web browser displaying the EBSH Tower website. The page title is "Home" and the logo "EBSH Tower" is visible in the top right corner with a "Log in" button. The main content area is titled "Status Golf Zones" and contains a table with the following data:

Gliding Zone	Status	FL	Open Time(LT)	Close Time(LT)
GA Malmedy	Active	65	11:00	17:30
GA La Roche	Active	65	11:00	17:30
GA St. Hubert	Active	65	11:00	17:30
LFA G1	Not Active			
LFA G2 South	Not Active			
LFA G2 North	Not Active			
LFA G2 West	Not Active			
LFA G3	Not Active			
LFA G5 West	Not Active			
LFA G5 East	Not Active

Warning

- Automatic Notam parsing may always contain errors. If you find an error, please contact Bertrand (bertrand@lesfontaines.be) to get it resolved.
- GAA zones are available only for specific pilots. GAA zones are not displayed. If displayed, they will probably be considered as “restricted”.

The « FAT » tool : how to use it?

The « FAT » tool : check the flight

The « FAT » tool : main buttons to use for GAA exam !

6

- 1: select airspace file from the list (or open an Openair file (« IN »))
- 2: « Go » to display the airspace
- 3: select the tranches you want to display (only below 4500 ft by default)
- 4: check EBFS QNH for FL conversion
- 5: Use the « Route » tool to calculate the distance between 2 points.
- 6: Deactivate/activate a given zone for multi-layers zones

PTB Daily Warnings Sunrise/Sunset ATIS/VOLMET Obstacles NOTAM Summary LOGIN

The Daily Warnings only contain NOTAM on navigational warnings and can never be used as single source for pre-flight briefing. Information on subjects such as activation of ATS airspace or aerodromes is not included. In order to receive full pre-flight information, an appropriate PTB must be made for each flight using the PTB tools provided.

Briefing for today 7 May: sorry, a bit late...

A little reminder: as a rule of thumb, stay below 4500FT (1371m) AMSL during weekdays.

- TSA 26A and TSA 26B active today. (is above 4500ft but this usually says that there is military activity - see bullet point below)
- And with the above, EBD 26 activated in the same window. (this is a danger zone and we are allowed to fly in, but it is possible that you come across an F16)
- EBR04 Elsenborn active for the rest of the week (and we automatically activate the adjacent EDR117 zone in Germany) (this is a zone where it is forbidden to fly in)

.

Validated airspace files can be found:

- *in the FAT tool*
- *on the FAT Google drive*
- *on airspace.xcontest.org*
- *in the XCTrack application (airspace visible with activation windows)*

Visualize the airspace and prepare your flight on the same FAT tool.

Livetracking: XCTrack/Xcontest - Flymaster

- *XCTrack = Free Android App with Livetracking*
- *Anyone can be seen WW*
- *Lead by example*
- *More security*
- *Strong incentive to follow the rules*
- *Allows EBSH tower to monitor (para)gliders in GAA zones*

XCTrack (Pro): Flight instrument with advanced Airspace features

- *XCTrack = Free Android App with advanced airspace features*
- *Direct data from airspace.xcontest.org*
- *2D and **vertical** views*
- *Airspace Proximity widget*
- ***Activation windows***
- *Automatic update, even during the flight*

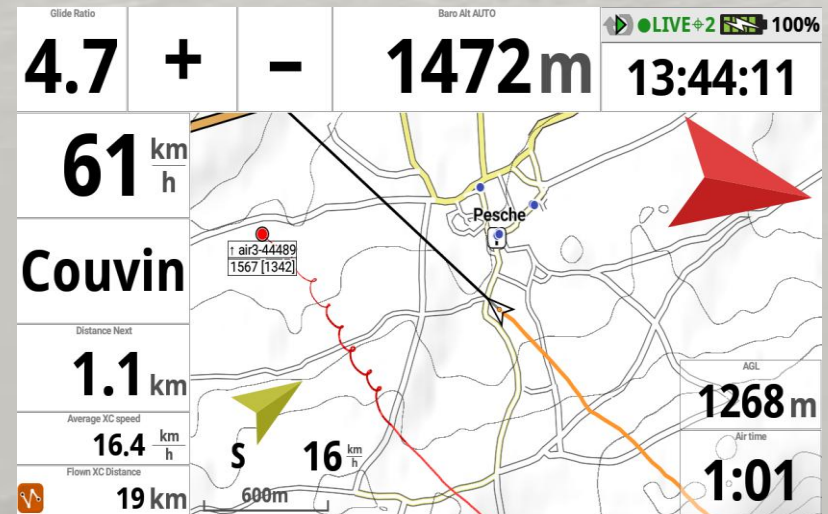

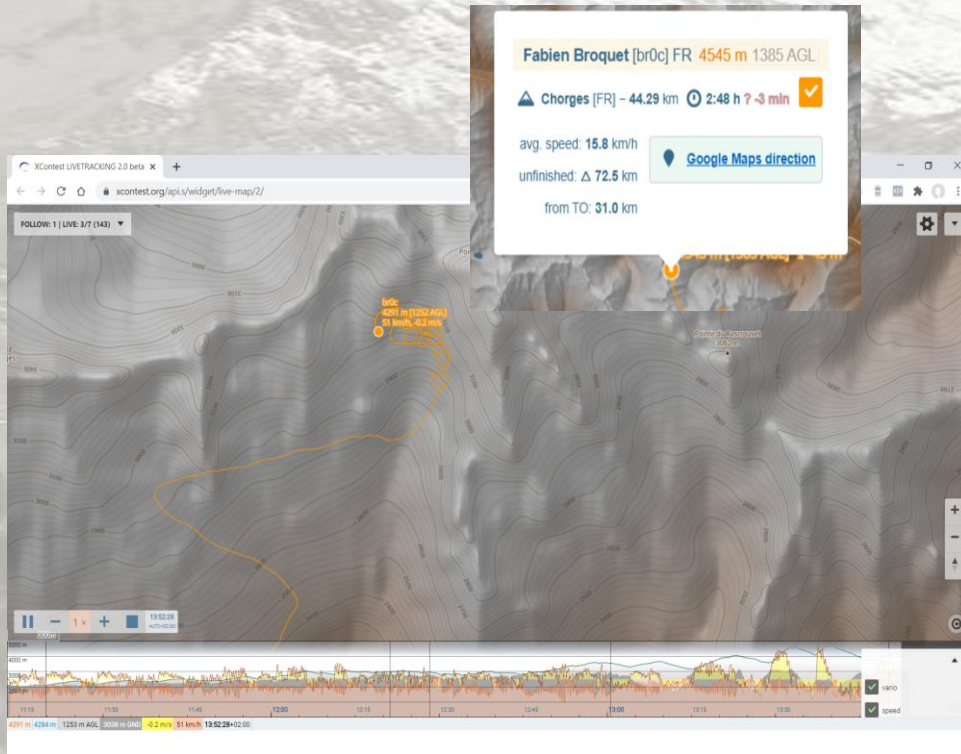

TSA26B ARDENNES 04 will be activated in 5 minutes

XCTrack (Pro): Livetracking

Livetracking on Live.xcontest.org and on other XCTrack Live devices

Livetracking & GAA

- Flymaster and/or XCTrack/Xcontest: 2 main platforms
- Already using Livetracking to get GAA-XC certificate.

Why?

- > Pilots using Livetracking are pilots that are following the rules (the opposite is not true /!\)
- Use Livetracking for GAA flights and for the other flights
- This is a GAA Charter commitment

Subjects :

- Specific GAA Knowledge
 - How GAA works
 - Radio and EBSH-Tower app monitoring
 - **GAA commitment**
- EBSH-Tower app
 - How, why, when
 - Messages for confirmation
- Tools for GAA and flights in general
 - Airspace.xcontest.org
 - Friendly Air Tool
 - Skeyes – AIP – Notams
 - BPC Facebook group briefings
 - Livetracking: XCTrack/Xcontest and Flymaster
- XC reminder
 - Altimetry
 - Airspaces
 - LFA Golf

XC Reminder – Altimetry: 3 different altitudes

- **QNH** : Barometric altitude based on the MSL pressure (hPa) in a specific place. Right altitude if correctly set.
- **FL (QNE)**: Barometric altitude provided by the pressure altitude based on 1013,25 hPa. Unless the QNH is 1013.25 hPa, this Standard altitude is not the same as the altitude based on QNH
 - Air to Air separation
- **GPS** : Satellite-based altitude with 3D error quite high depending on the devices and places

XC Reminder – Altimetry

- **Local QNH :**

Is the one used for the entire country in non-controlled airspace. It can change at any moment.

- In Belgium we switch from QNH to FL above 4500ft AMSL (± 1372 m)

XC Reminder – Airspace

- The sky is classified from **A**lpha to **G**olf zones, alpha being the most restrictive and Golf the less.

Class	Type of flight	Separation provided	Service provided	Speed limitation?	Radio communication capability requirement	Continuous two-way-air-ground voice communication required	Subject to ATC CLR
A	IFR only	all ACFT	ATC service	not applicable	yes	yes	yes
B	IFR	all ACFT	ATC service	not applicable	yes	yes	yes
	VFR	all ACFT	ATC service	not applicable	yes	yes	yes
C	IFR	IFR from IFR	ATC service	not applicable	yes	yes	yes
	IFR	IFR from VFR	ATC service	not applicable	yes	yes	yes
D	VFR	VFR from IFR	(1) ATC service for separation from IFR; (2) ATC service VFR/VFR traffic information (and traffic avoidance advice on request)	250 KIAS below FL 100	yes	yes	yes
	IFR	IFR from IFR	ATC service includes traffic information about VFR flights (and traffic avoidance advice on request) and VFR flights (and traffic avoidance advice on request)	250 KIAS below FL 100	yes	yes	yes
E	VFR	NIL	ATC service, as far as practical, traffic information about VFR flights	250 KIAS below FL 100	yes	yes	yes
	IFR	IFR from IFR	ATC service, as far as practical, traffic information about VFR flights	250 KIAS below FL 100	yes	yes	yes
F	VFR	NIL	traffic information as far as practical	250 KIAS below FL 100	no ¹	no ¹	no
	IFR	IFR from IFR as far as practical	air traffic advisory service, FIS if requested	250 KIAS below FL 100	yes ¹	no ¹	no
G	VFR	NIL	FIS if requested	250 KIAS below FL 100	no ¹	no ¹	no
	IFR	NIL	FIS if requested	250 KIAS below FL 100	yes ¹	no ¹	no
G	VFR	NIL	FIS if requested	250 KIAS below FL 100	no ¹	no ¹	no
	IFR	NIL	FIS if requested	250 KIAS below FL 100	no ¹	no ¹	no

We fly here!

- In Belgium** : non-controlled airspace is **G**, most of CTR are **D** and CTA (TMA, AWY, LTA, ...) are **C**.

XC Reminder – Airspace

- *Particular Segments :*

- **TRA:** Temporary Reserved Area

Reserved zone for special uses (most of the time forbidden for paragliders)

- **TSA:** Temporary Segregated Area

Divided zone for special uses or civilian/military optimization

(most of the time forbidden for paragliders)

- **LFA:** Low Flying Area

Low altitude training area or extended non-controlled airspace (**LFA-G**)

- **HTA:** Helicopter Training Area

Low altitude helicopter training area

XC Reminder – Airspace

- *Special Zones :*

- **D**: **D**anger

- Zone with potential dangers for crossing aircraft (keep sharp look-out!)

- **R**: **R**estricted

- Zone with conditional access (most of the time forbidden for paragliders)

- **P**: **P**rohibited

- Forbidden access zone!

- **TMZ**: **T**ransponder **M**andatory **Z**one (forbidden for paragliders)

- **RMZ**: **R**adio **M**andatory **Z**one (forbidden for paragliders)

- **ATZ**: **A**irfield **T**raffic **Z**one (forbidden* for paragliders)

* See AIP for each zones

XC Reminder – Airspace : **LFA Golf**

- Those are extended golf class airspace allocated by Skeyes to the glider community above 4500 ft^{AMSL} when Mil is not active
- Higher limit is « FL excluded ». This means we are not supposed to fly at that Flight Level.
 - **G1**: 4500ft^{QNH} – FL55 Excl. When MIL is not active
 - **G2**: FL55 – FL 75 Excl. When Gliders are requesting it
 - **G3**: FL55 – FL65 Excl.
 - **G5**: FL75 – FL90 Excl.

XC Reminder – FL conversion

IMPORTANT
 TOOL FOR
 GAA EXAM!

Higher the
 pressure,
 higher the
 corresponding
 altitude for a
 given FL!

XC Reminder – Significant zones: TSA-26B (4500ft AMSL) & LFCBA 16B (FL65)

Important to know for
GAA EXAM

XC Reminder – Significant zones: EBR04 & ED R117

Summary: how to be allowed to fly within the GAA's?

- Before the flight
 - Always fly with Livetracking
 - Purchase a radio able to listen to EBSH
 - Get an Android device to run EBSH-tower app
 - Have received the GAA certificate number from FBVL
(Charter signed, exam succeeded, other conditions met)

Summary: how to be allowed to fly within the GAA's?

- The day of the flight
 - Check notam's to make sure GAA's are active and allowed
 - Keep flying with Livetracking
 - Listen to EBSH frequency
 - Run EBSH-tower app

QUESTIONS & ANSWERS

A grayscale photograph of a mountain range. The foreground shows a dense forest of evergreen trees on a slope. In the middle ground, there are rolling hills and valleys. The background features several large, rugged mountain peaks, some of which are covered in snow or light-colored rock. The overall scene is misty or hazy, giving it a soft, atmospheric quality. The text 'QUESTIONS & ANSWERS' is centered in the upper portion of the image in a bold, black, sans-serif font.

Questions GAA-XC certificate

- The candidate is supposed to use a computer with internet access. The goal is to check that the pilot is able to prepare his flight, is able to find the info needed, understand the info and have the right info in mind while flying.
- Questions can be shared before the training/exams, so that the pilot can be better prepared. New scenarios (notams) will be used for each exam

Information with this color is a variable and will be changed for the exam.

Examen GAA-XC 12/04/2024

Date: Nom du pilote:

Numéro brevet XC:

Utilisation du Livetracking pour tous mes vols:

Depuis

Type: Flymaster – Xcontest/Xctrack

Identifiant:

Utilisation d'une radio capable d'écouter la tour
EBSH (122,18Mhz)

Brand/model:

EBSH-Tower installé + enregistré

Le candidat est censé utiliser un ordinateur avec accès à Internet. Le but est de vérifier que le pilote est capable de préparer son vol, est capable de trouver l'info, de comprendre l'info et d'avoir la bonne info en tête en vol.

Signature du pilote

Questions (1)

- A quelle heure locale théorique (en se basant sur l'AIP) puis-je décoller d'Andenne et monter jusqu'à 1000 m AMSL le 30/08/2024 , 01/09/2024 , le 03/09/2024 et le 06/09/2024?

.....
.....

- A quelle condition puis-je voler jusqu'à 1950 m AMSL au sud de Revin lorsque la TSA26B est active?

.....

- Quelles sont les limites verticales de la EBR19 (Marche) ?

.....

- Quelle est la fréquence principale de la tour de Beauvechain ?

.....

Questions (2)

- Quelle distance maximum puis-je effectué si je souhaite monter jusqu'à 1700 m AMSL, vertical déco et effectuer un cross à la même hauteur dans un axe perpendiculaire au déco, dans le sens du vent (voir parenthèses!), sachant que la TSA26B est active et perméable au trafic GAA, la EBR04 est active, les GAA sont actives sans transpondeurs, en faisant max 100 KM? Indiquez 0 (Non autorisé) , 100 (aucune contrainte) ou le nombre de KM max depuis le déco si je suis arrêté à un moment donné dans mon projet.

Revin (**N-NO!**): La roche (N): Coo (O): Fumay (O): Beauraing (N):
7Meuses (S): Andenne (NE): Prayon (NE): Maboge (SO): Revin (S):

- Comment trouver l'information de façon certaine (à la source) des zones militaires actives, impactant nos vols potentiels en Wallonie et indiquez 2 zones principales qui nous concernent régulièrement?

- A) Quelles sont les 5 conditions pour qu'un pilote de parapente puisse obtenir son brevet XC GAA
- B) Quelles sont les 4 conditions pour qu'un pilote puisse voler dans une GAA en semaine une fois le brevet XC GAA obtenu?

Quelles sont les zones actives le 05/04 à (heure locale) midi:
15h10 :

Questions (4)

- Le **30/11/2023**, sur base de l'espace aérien disponible dans le Friendly Air Tool, le QNH d'aujourd'hui, et avec les 3 GAA actives et autorisées aux ayants droit..., pour chaque site repris ci-dessous, indiquez dans la première colonne si je peux accomplir un vol de **40 km** (maximum) en pouvant monter **au moins une fois** à une altitude de **1750 m** AMSL. Prendre en compte une variation possible de **30°** par rapport au cap annoncé ? Réponse: Oui ou Non.
- Pour les 5 premiers sites où il est possible d'effectuer ce vol, répondez aux questions suivantes:
 - Préciser si il est possible de maintenir **1750 m** AMSL durant tout le vol dans la seconde colonne en commençant vertical déco (Rép: Oui ou Non)
 - Si la réponse est Non à la question précédente, donnez une distance approximative pendant laquelle il est possible de maintenir cette altitude (à quelque moment du vol que ce soit).
 - Donner le nom des zones actives rencontrées potentiellement dans un axe de +- 30° par rapport au cap donné (Y compris les zones danger).

	Vol 40K?	Entier?	# KM possible	Zones à prendre en compte
Depuis Coo, direction Est-Nord-Est				
Depuis Maboge, direction Nord-Est				
Depuis 7M, direction Nord				
Depuis Beuraing, direction Sud				
Depuis Prayon, direction Sud				
Depuis Revin, direction Nord-Est				
Depuis Fumay, direction Est				
Depuis Revin, direction Ouest				

Activation LFA-G

LFA Golf Status

Status on Saturday 04 September 2021

The lowest QNH today is: **1016hPa**

Low Flying Area G1 is **ACTIVE** up to FL55 excluded (=1552 meter AMSL) from 1 local time.

Low Flying Area G2 North is **NOT ACTIVE**

Low Flying Area G2 West is **NOT ACTIVE**

Low Flying Area G2 South is **ACTIVE** up to FL75 excluded (=2162 meter AMSL) from 1100 local time.

Low Flying Area G5W is **ACTIVE** up to FL95 excluded (=2771 meter AMSL) from 1300 local time.

Low Flying Area G5E is **ACTIVE** up to FL95 excluded (=2771 meter AMSL) from 1300 local time.

Questions LFA-G (5)

- Comment obtenir les statuts des LFA-G de façon certaine (à la source)?

.....

- Depuis quel(s) déco(s) puis-je voler jusqu'à 1500m AMSL/2100m AMSL sur un vol XC de 25 km (pendant tout le vol, en démarrant vertical déco à Midi), sachant qu'une variation possible de 30° doit être prise en compte par rapport à la direction donnée? Dans la dernière colonne, indiquez si il y a des zones spécifiques à prendre en compte pendant le vol et comment les respecter.

	1500 AMSL	2100 AMSL	Zones à prendre en compte et à respecter
De Coo, direction Est-Nord-Est			
Depuis La Roche, direction Sud			
Depuis 7M, direction Nord-Nord-Est			
Depuis Beauraing, direction Sud			
Depuis Revin, direction Nod-Est			
Depuis Fumay, direction Est			
Depuis Prayon, direction Sud/Ouest
